About us

Established in 2008, Mogod healthcare has grown to be the premier solutions provider for Medical Equipment and Supplies within the region. Whether you are looking to equip a healthcare center or implement a national project, Mogod healthcare is able to respond with the correct quality at internationally competitive pricing. All that, is backed up by a team of professionally factory trained engineers. Apicalmed is a reputable distributor/supplier of all types of medical equipment and consumables mainly in East Africa and South Sudan. Our goal is to reach the rest of Africa as the supplier of choice. We work with various well-known manufacturers and supply only approved equipment and consumables that have passed test of time. We pride ourselves in Quality products and Customer satisfaction is a virtue and our legacy.

We are always exploring new business relations and stand ready to engage in strategic partnerships and building healthy Business to Business (B2B) rapport. With broad reach in East African countries and a total team of over 30 professionals, we hope that in Apicalmed you will find a correct partner. A partner that shall deliver

with value and on time. A partner that shall enable you carry out your core business "treating the patient". Apicalmed Ltd has the exility and experience to respond to healthcare needs at all levels, from the smallest local facility to projects on a national scale. With a wide range of in-house stocks at our premises,

we are also able to deal with rapid reaction to emergency situations, as well as long term requirements.

WHAT WE ENTAIL

Equipping products from a worldwide reputable network of partners, thus generating a wide product portfolio which creates a sustainable competitive advantage. The operations of the company consolidate the import, distribution, technical support and maintenance of medical devices; equipment and disposables. The company is active in East Africa with a remarkable head office, showroom, warehouse and seminar room in Nairobi Kenya. Our main customer portfolio is: Public and Private Hospitals, Nursing Homes, Pharmacies, Vet Clinics. The company's aim is to stand behind its name, to be the preferred organization partner and to strive for excellence by providing superior quality and advanced products and services to its valued customers.

We are aiming in providing total customer-oriented solutions. The company's vision is to maintain a leading position in delivering advanced products/services to the healing professional hands as a result of improving our Healthcare sector and wellbeing of our homecare clients. Moreover, to provide added value to our customers by enhancing our wide range of products/service and therefore be their total solution provider.

Our STRATEGY

We have a clear long-term strategy which is based on our purpose, vision, mission and values. It is the foundation which helps us successfully to shape the future of our company.

Our long-term strategy is to see Apical Med Limited generate continued profitable growth, to become more customer-focused, more innovative, more agile and fully digitized in our internal processes and customer-facing activities.

To achieve this ambition, we will focus on strategic priorities and financial ambitions for the coming years. In addition, we aim to promote sustainability in all our business activities, reinforcing our leading position.

MISSION Statement

To be the recognized Regional Market Leader in provision of Medical Equipment and Supplies whilst enhancing the standards within the Health Industry.

Our VISION

To enhance 'the value of shareholders' funds and be the recognized market leader in provision of Medical Equipment and Supplies within the region.

To provide quality equipment and supplies to the medical fraternity through customer focus, appropriate solutions and corporate social responsibility.

HOSPITAL FURNITURES.

DESCRIPTION

PRODUCT DESCRIPTION

1 FUNCTION ELECTRIC HOSPITAL BED AM-DK-11L

- ✦ Detachable ABS head/foot board
- ✦ Collapsible aluminum alloy guardrails
- ✦ Integrated stamping frame and mattress base are made of steel epoxy
- ✦ I.V. Pole & Drainage hook with PU cover
- ✦ Heavy duty caster with brakes 5"
- ✦ Back adjustment by 1 motor
- ✦ Hand remote control

PRODUCT DESCRIPTION

EXAMINATION BED (ELECTRIC MOTOR) AM-BC16

- ✦ The electric couch, High grade mild steel frame coated
- ✦ Cushioned with foam mattress, leather covered, waterproof.
- ✦ Back rest adjustable and Knee rest downwards by Gas Spring control.
- ✦ Height Adjustable by electric motor.
- ✦ Pedal control and Silent castor.
- ✦ Mattress color can change by requirements.

PRODUCT DESCRIPTION

EXAMINATION BED (ELECTRIC MOTOR) AM-BC13

- ✦ The examination couch, High grade mild steel frame, Cushioned with foam mattress, leather covered and waterproof. Height adjustable by electric motor, Backrest adjustable by Gas Spring. Pedal control and Silent Castor

PRODUCT DESCRIPTION

5 Function Luxury Electric Hospital Bed AM-ICU-5

- ✦ With easily operated touching switch, solve the problem of limited service life of mechanical keypad and keypad invalid due to constantly operating.
- ✦ Insert touching switch in the 2 pcs side rail at the head side, for patient adjust bed posture easily. Also a touching switch system at the foot board, with Patient Lock-Out system, for nursing person's operation

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

5 Function Luxury Electric Hospital Bed AM-ICU-6

- + With easily operated touching switch, solve the problem of limited service life of mechanical keypad and keypad invalid due to constantly operating
- + Insert touching switch in the 2 pcs side rail at the head side, for patient adjust bed posture easily. A 10.2" touching screen at the foot board, display all the bed posture figures with Patient Lock-Out system, for nursing person's position

PRODUCT DESCRIPTION

5 Function Electric Hospital Bed AM-DK-55K

- + Detachable ABS head/foot board
- + Collapsible ABS guardrails
- + Embedded rails control
- + Embedded nurse on the foot board
- + Integrated stamping frame and mattress base are made of steel epoxy
- + I.V. Pole & Drainage hook with PU cover
- + Center control lock

PRODUCT DESCRIPTION

8 Function Electric Hospital Bed AM-DK-8K

- + Nurse controller & Rail controller
- + Linak electric motor
- + Drainage hook
- + Angle scale
- + CPR handle
- + Rise-and-fall guide wheel
- + Detachable PP head and foot board & PP side rail

PRODUCT DESCRIPTION

5 Function Electric Hospital Bed AM-DK-51L

- + Detachable ABS head/foot board
- + Collapsible aluminum alloy guardrails
- + Integrated stamping frame and mattress base are made of steel epoxy
- + I.V. Pole & Drainage hook with PU cover
- + Heavy duty caster with brakes 5"
- + Hand remote control
- + Back, Knee, Hi/Low, Trendelenburg & Anti-Trendelenburg adjustment by 4 motors

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

5 Function Electric Hospital Bed AM-DK-58K

- + 4-sectioned steel mattress base. And bed frame is made of steel epoxy, polyester powder coated and baked finish.
- + Collapsible ABS guardrails
- + Back, Knee, Hi/Low, Trendelenburg & Anti-Trendelenburg adjustment by 4 motors
- + Detachable ABS head/foot board, it locked with a safety switch
- + I.V Pole & Drainage with PU cover

PRODUCT DESCRIPTION

3 Function Electric Hospital Bed AM-DK-31L

- + Detachable ABS head/foot board
- + Collapsible aluminum alloy guardrails
- + Integrated stamping frame and mattress base are made of steel epoxy
- + I.V. Pole & Drainage hook with PU cover
- + Heavy duty caster with brakes 5"
- + Back, Knee, Hi/Lo adjustment by 3 motors
- + Hand remote control

PRODUCT DESCRIPTION

3 Function Electric Hospital Bed AM-DK-38L

- + Detachable ABS head/foot board
- + Collapsible ABS guardrails
- + Integrated stamping frame and mattress base are made of steel epoxy
- + I.V. Pole & Drainage hook with PU cover
- + Heavy duty caster with brakes 5"
- + Back, Knee, Hi/Lo adjustment by 3 motors
- + Hand remote control

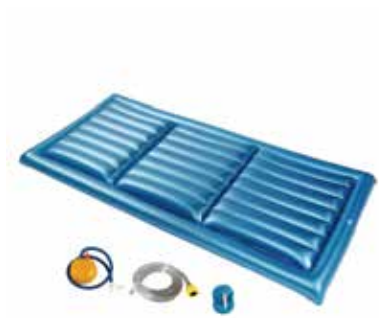

PRODUCT DESCRIPTION

1 FUNCTION ELECTRIC HOSPITAL BED AM-DK-11L

- + Detachable ABS head/foot board
- + Collapsible aluminum alloy guardrails
- + Integrated stamping frame and mattress base are made of steel epoxy
- + I.V. Pole & Drainage hook with PU cover
- + Heavy duty caster with brakes 5"
- + Back adjustment by 1 motor
- + Hand remote control

DESCRIPTION

PRODUCT DESCRIPTION

Water Mattress Bedsores Prevention AM-W02

- ✦ Static mattress overlay
- ✦ Made with heavy duty PVC for durability and comfort
- ✦ Constructed with 3 independent pieces for better body contour and pressure relief
- ✦ Outer air frame to provide additional support and security

PRODUCT DESCRIPTION

Examination Bed (Manual) AM-BC15

- ✦ The Gynecological Couch, Stainless Steel Frame, Cushioned With Foam Mattress, Leather Covered, waterproof. Leg Holder Adjustable And S.S Basin. Backrest Adjustable And Knee-rest Downwards By Double Ratchet Mechanism.

PRODUCT DESCRIPTION

Baby Bed AM-BD03

- ✦ Full stainless steel with transparent ABS basin and castor.
- ✦ This bed can take a bath or sleeping.

PRODUCT DESCRIPTION

Baby Bed AM-BD04

- ✦ Full stainless steel with transparent GRP basin and castor.
- ✦ Four small flexible casters, can be braked respectively and without noise.
- ✦ This bed can take a bath or sleeping.

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Baby Bed AM-BD05

- + Full stainless steel frame.
- + Four small flexible casters, can be braked respectively and without noise.
- + Collapsible stainless steel side rail

PRODUCT DESCRIPTION

Children Bed AM-BD01

- + 2-sectioned steel coated mattress base. And bed frame is made of steel
- + epoxy,
- + Polyester powder coated and baked finish.
- + Collapsible steel coated guardrails
- + I.V Pole & Drainage with PU cover
- + Heavy duty castor with brakes
- + Manual crank system 1 set

PRODUCT DESCRIPTION

Children Bed AM-BD10

- + 4-sectioned steel coated mattress base. And bed frame is made of steel
- + epoxy,
- + Polyester powder coated and baked finish.
- + Collapsible steel coated guardrails
- + I.V Pole & Drainage with PU cover
- + Heavy duty castor with brakes
- + Manual crank system 2 set (stainless steel crank)

PRODUCT DESCRIPTION

5 Function Manual Hospital Bed AM-MK-51L

- + Detachable ABS head/foot board
- + Collapsible aluminum alloy guardrails
- + Integrated stamping frame and mattress base are made of steel epoxy
- + I.V. Pole & Drainage hook with PU cover
- + Heavy duty castor with brakes 5"
- + Back adjustment by 1 motor
- + Hand remote control

DESCRIPTION

PRODUCT DESCRIPTION

4 Function Traction Bed AM-MK-G2U

- + 4-sectioned steel mattress base. And bed frame is made of steel epoxy, Polyester powder coated and baked finish.
- + Collapsible Aluminium Alloy guardrails
- + Detachable ABS head/foot board, it locked with a safety switch
- + I.V Pole & Drainage with PU cover
- + 5" silent castors with brake
- + Load bearing capacity is over 180kg

PRODUCT DESCRIPTION

2 Function Traction Bed AM-MK-G2L

- + 4-sectioned steel mattress base. And bed frame is made of steel epoxy, Polyester powder coated and baked finish.
- + Collapsible Aluminum Alloy guardrails
- + Detachable ABS head/foot board, it locked with a safety switch
- + I.V Pole & Drainage with PU cover
- + 5 silent castors with brake
- + Load bearing capacity is over 180kg

PRODUCT DESCRIPTION

5 Function Manual Hospital Bed AM-MK-51K

- + 4-sectioned steel mattress base. And bed frame is made of steel epoxy, Polyester powder coated and baked finish.
- + Collapsible Aluminum Alloy guardrails
- + Detachable ABS head/foot board, it locked with a safety switch
- + I.V Pole & Drainage with PU cover
- + Center control lock system
- + Load bearing capacity is over 180kg

PRODUCT DESCRIPTION

3 Function Manual Hospital Bed AM-MK-31K

- + 4-sectioned steel mattress base. And bed frame is made of steel epoxy, Polyester powder coated and baked finish.
- + Collapsible Aluminum Alloy guardrails
- + Detachable ABS head/foot board, it locked with a safety switch
- + I.V Pole & Drainage with PU cover

Dental X-Ray Unit ADM-10B

- + Classification: Electrometrical, Class I, Type B
- + Power supply: 220V±10%, 50Hz, 1kVA
- + Tube voltage: 60KVp
- + Tube current: 8mA
- + Focus size: 1.5mm
- + Total filtration: 2.5mmAL
- + Exposure time: 0.2 to 4 sec

PRODUCT DESCRIPTION

Dental Endoscope System AM-AC-192

- + 1. New model of 1/4 COMS high resolution intra or camera connect 17inch LCD screen.
- + 17inch LCD can freely adjust contrast, lightness and color.
- + With high resolution, high performance and auto-focus.
- + Built in 6pcs high brightness long-lift white LED.
- + The front three control button: Freeze, Save, Previous imager Next, image + delete. And the reverse side control buttons: Freeze and Save.

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Dental Suction System AM-S-750L

- ✦ During dental treatments, waste water, saliva, blood, and filling materials create a microscopic cloud of debris that is released into the oral cavity and is then exhaled by the patient. Without a high-quality dental suction unit, dentist and dental assistants are at risk of inhaling this debris along with the plethora of microorganisms found inside the human mouth. The patient is also at risk of aspirating the debris into the lungs or potentially choking on the build-up of saliva during the treatment.

PRODUCT DESCRIPTION

Dental Care Model (28pcs) AM-K1

- ✦ This model is enlarged approx.5 times.
- ✦ It can be used for the training of tooth brushing, dental care, etc

PRODUCT DESCRIPTION

Dental Care Model (28pcs) AM-K2

- ✦ This model is enlarged approx.3 times.
- ✦ It can be used for the training of tooth brushing, dental care, etc

- + Frequency: 32KHZ
- + Tube voltage: 60KV
- + Tube current: 1.5mA
- + Exposure time: 0.02-4sec
- + Distance from skin to cone: 130mm
- + Tube focus: 0.3mm*0.3mm
- + Output voltage: DC16.8V

PRODUCT DESCRIPTION

High Frequency Dental X-Ray Unit AM-ADM-10A

- + Power supply: AC220V±10%
or AC110V±10%, 50/60HZ
- + Frequency: 200KHZ
- + Tube voltage: 70KV
- + Tube current: 8mA
- + Focus size: 0.8mm
- + Total filtration: 2.5mmAL

PRODUCT DESCRIPTION

Digital Dental X-Ray Sensor AM-DS530

- + Material: APS
- + Sensing area: 30X20mm (600mm²)
- + Sensor Pixels: 3.2 million pixels
- + Pixel size: 19x19um
- + Resolution: > 20 lp / mm
- + Gray scale: 12 bit
- + Life: > 100000 times

Infant Incubator AM-AI-2

- ✦ Microprocessor based servo-controlled temperature system
- ✦ Control modes: Air mode and baby skin mode
- ✦ Humidity is adjustable continuously
- ✦ Set temperature, air temperature, baby skin temperature, timer and heating power are displayed separately by LED
- ✦ Self – testing function, various failure alarms by audible and visual
- ✦ >37°C temperature set function

PRODUCT DESCRIPTION

Infant Incubator AM-AI-3

- ✦ 8.4 LCD display
- ✦ Temperature monitoring
- ✦ Temperature servo control
- ✦ Humidity Monitoring
- ✦ Humidity Servo Control
- ✦ Air temperature and body temperature control two modes
- ✦ Mattress tilt $\pm 12^\circ$

PRODUCT DESCRIPTION

Infant Phototherapy Unit AM-AL-5 LED

- ✦ LED lamp as phototherapy radiating elements
- ✦ Irradiance intensity is adjustable in 3 grades: low, middle, high
- ✦ LCD screen display therapy time and integral time separately
- ✦ Equal light distribution, high intensity
- ✦ Quiet, no noise of fan
- ✦ Count up timer and count down timer for exact and convenient treatment

PRODUCT DESCRIPTION

Infant Phototherapy Unit AM-AL-3 LED

- ✦ LED bulbs as phototherapy radiant source
- ✦ Button control switch
- ✦ Equal light distribution. High intensity
- ✦ Quiet, no noise of fan Long life span
- ✦ Timer for total using time and each treatment time
- ✦ Count down timer
- ✦ Using on top of infant incubator for neonate bilirubin phototherapy treatment

PRODUCT IMAGE

PRODUCT DESCRIPTION

Infant Phototherapy Unit AM-B-300

- + 3.5 inch LCD TFT color touch control screen
- + Light intensity adjustment with range 0-100% uW/cm²/nm by 5% increments
- + 16 pcs super LEDs and 4 pcs white examination LEDs
- + Optional languages support
- + Green LED marking light ensure the users determine the active treatment zone inside ideal efficient area (50*25cm)

PRODUCT DESCRIPTION

Infant Warmer AM-AW-EA

- + Microprocessor based servo-controlled temperature system
- + Two modes: Manual and automatic
- + Set temperature and skin temperature display separately
- + Anti-explosion micro crystal quartz for radiation source
- + Self – testing function, various failure alarms by audible and visual
- + Transparent protector can be folded down, with two infusion seals
- + RS232 connector

PRODUCT DESCRIPTION

Infant Warmer AM-AW-1A

- + Three modes: pre-warm, manual and automatic
- + Set temperature and skin temperature display separately
- + Anti-explosion micro crystal quartz for radiation source
- + Self – testing function, various failure alarms by audible and visual
- + APGAR timer to record therapy time
- + Convenient X-ray cassette tray under infant mattress
- + Heater head can be adjusted ± 90° horizontally

PRODUCT DESCRIPTION

Infant Warmer AM-AW-1B

- + Three modes: pre-warm, manual and automatic
- + Set temperature and skin temperature display separately
- + Anti-explosion micro crystal quartz for radiation source
- + Self – testing function, various failure alarms by audible and visual
- + APGAR timer to record therapy time
- + Convenient X-ray cassette tray under infant mattress
- + Heater head can be adjusted ± 90° horizontally

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Infant Warmer AM-AW-1C

- ✦ Three modes: pre-warm, manual and automatic
- ✦ Set temperature and skin temperature display separately
- ✦ Anti-explosion micro crystal quartz for radiation source
- ✦ Self – testing function, various failure alarms by audible and visual
- ✦ APGAR timer to record therapy time
- ✦ Convenient X-ray cassette tray under infant mattress
- ✦ Heater head can be adjusted $\pm 90^\circ$ horizontally

PRODUCT DESCRIPTION

- ✦ Microprocessor based servo-controlled temperature system
- ✦ Three modes of control: Pre-warm, manual and automatic
- ✦ Set temperature and central skin temperature, peripheral temperature, air temperature, APGAR timer, heating power display separately
- ✦ 8" LCD colorful touch screen
- ✦ Carbon steel heater for more effectivity
- ✦ Special design inclined heater head is more convenience for X ray test

ANALYZER.

www.mogodhealthcare.com

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Touch Screen PCR Analyzer AM-A100/A200T

- ✦ Newest Generation Peltier-based Technology, more Steady, Reliable and Durable
- ✦ 7" Color Full Touch Screen, Graphical Display of Protocols
- ✦ Effortlessly Interchangeable Reaction Modules that Swap in Seconds without Tools.
- ✦ Bilingual Interface (English and Chinese)
- ✦ Unlimited storage of Protocols with USB Flash Drive

PRODUCT DESCRIPTION

Touch Screen PCR Analyzer AM-A300 (Fast)

- ✦ Steplessly Adjustable Lid, accommodates a wide range of PCR tubes and plates
- ✦ With password-based authentication, prevent from view, copy and alteration of protocols
- ✦ Automatically calculates the melting and annealing temperature with two primer sequences

PRODUCT DESCRIPTION

Urine Analyzer AM-UA-11C

- ✦ Cold-light source with high luminosity, long shelf life
- ✦ Innovative light sensor, high sensitivity
- ✦ Automatic calibration improves accuracy
- ✦ Standard RS232 interface for connect with external computer
- ✦ Storage of 2,000 testing results

PRODUCT DESCRIPTION

Urine Analyzer AM-UA-11B

- ✦ Cold-light source with high luminosity, long shelf life
- ✦ Innovative light sensor, high sensitivity
- ✦ Automatic calibration improves accuracy
- ✦ Standard RS232 interface for connect with external computer
- ✦ Storage of 1,000 testing results

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Fully Automatic Urine Analyzer AM-KU-500

- + Low noise during operation
- + Built-in PC, large-capacity storage drive, storing millions of test results
- + Perfect quality control system
- + Optional bar code reader, convenient for information management
- + Perfect alarming system
- + 8 inch LCD touch screen, Windows system operation platform, English operation interface, simple and convenient

PRODUCT DESCRIPTION

Blood Gas Analyzer AM-BG-800

- + Multi-combination parameters
- + Self-made maintenance free electrodes
- + Both for syringes & capillary
- + 35UL for capillary, 95UL for whole blood
- + 1 min from the aspiration to result
- + Long-lasting fluid system
- + All-in-one design calibrate cartridge

PRODUCT DESCRIPTION

Automatic Glycated Hemoglobin HbA1c Analyzer AM-AC6601

- + Accurate Principle of Methodology
- + Adopts classical and accurate principle of methodology – Ion exchange liquid chromatography, It is the gold standard of HbA1C analysis, and it is the only analysis method to really separate HbA1C directly by measuring the piecemeal absorbance through continuous test on line, and obtain the correct area percentage with integration.

PRODUCT DESCRIPTION

Electrolyte Analyzer AM-AC9101

- + Audicom AC9101 Electrolyte Analyzer
- + Measuring Items: K⁺, Na⁺, Cl⁻,
- + Measuring time: 25s time
- + Time for sampling, measuring, washing and printing: 45s
- + Sample size: 100ul
- + Data storage: 10000 Samples
- + Communication interface: 232

**CENTRIFUGE
|| REFRIGERATOR.**

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Medical Pharmacy Refrigerator (2~8°C) AM-AMR-V1006

- + Accurate temperature controller, ensure the inside temperature within 2~8°C and accuracy 0.1°C
- + Specially designed forced-air cooling system, ensure frost-free cabinet and good temperature uniformity
- + Suggested ambient temperature 10~32°C with humidity below 95%
- + Three-layer toughened glass door with heater to avoid condensation

PRODUCT DESCRIPTION

Medical Pharmacy Refrigerator (2~8°C) AM-AMR-V656

- + Accurate Temperature control technology to make the temperature maintain 2~8°C and increment 0.1°C
- + Specially designed forced-air cooling system, circulating air cold back blowing technology, ensure frost-free cabinet and good temperature uniformity.
- + Suggested ambient temperature 10~32°C with humidity below 95%
- + Three-layer toughened glass door with heater to avoid condensation.

PRODUCT DESCRIPTION

Medical Pharmacy Refrigerator (2~8°C) AM-AMR-V415

- + – Accurate temperature controller, ensure the inside temperature within 2~8°C and accuracy 0.1 °C.
- + Standard USB port, record once every ten minutes, can record 10 years of capacity. Easy to download data through USB port.
- + Specially designed forced-air cooling system, ensure frost-free cabinet and good temperature uniformity.
- + Suggested ambient temperature 10~32°C with humidity below 95%.

PRODUCT DESCRIPTION

Medical Pharmacy Refrigerator (2~8°C) AM-AMR-V416

- + Accurate temperature controller, ensure the inside temperature within 2~8°C and accuracy 0.1°C
- + Specially designed forced-air cooling system, ensure frost-free cabinet and good temperature uniformity
- + Suggested ambient temperature 10~32°C
- + Three-layer toughened glass door
- + Cold spray steel plate inner chamber for friendly using and easy clean-

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Centrifuge AM-80-2B

- ✦ The frame of this instrument is made of high strength plastic. Its model is beautiful, and it has the advantages of small cubage, low weight, large capacity, low noise, high efficiency and so on.

PRODUCT DESCRIPTION

Low Speed Centrifuge AM-LC-04L

- ✦ Time: 0-99min
- ✦ Max RCF: 2325xg
- ✦ Max RPM: 4000RPM, stepless speed adjustment
- ✦ Rotor capacity: 20ml*12 (Standard Rotor 1)
- ✦ Voltage: 110V 60Hz/220V 50Hz
- ✦ Dimension: 320*340*280mm; Weight: 9kg
- ✦ Strong plastic case

PRODUCT DESCRIPTION

PRP Centrifuge AM-MCKS-1000/1200

- ✦ -Include with two kinds of centrifugal rotors, suitable for many kinds of centrifuge tubes and PCR tubes (two rows)
- ✦ The products are suitable for the extraction of serum, supernatant, rapid precipitation of samples, micro blood cell separation, microbiological sample processing, PCD test, zoning centrifuge, etc.

PRODUCT DESCRIPTION

Isotope Mini Centrifuge AM-MC-Series

- ✦ Especially using for isotope
- ✦ Transparent lid, easy for observation
- ✦ Touch switch, automatic stop once lid open
- ✦ A variety of rotors can be replaced
- ✦ Rotor capacity: 0.2ml*6, 0.5ml*6, 1.5ml*6, 2ml*6, 0.2ml*16 (double rows)

LABORATORY.

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Portable Digital Slit Lamp AME-5S3

- AME-5S3 Portable Digital Slit Lamp Microscope is produced with high illumination white LED, and can be used about 5 to 6 hours continuously after fully recharged. The net weight is 750 g only, so that very convenient to be carried. And very proud that it is the very initial and most advanced portable model in China. With Nikon Camera & Camera adaptor & Background illumination & Fixation Lamp
- Microscope type: Binocular crossed stereo microscope

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Slit Lamp AME-5S1

- ✦ AME-5S1 Portable Slit Lamp Microscope is produced with high illumination white LED, and can be used about 5 to 6 hours continuously after fully recharged. The net weight is 750 g only, so that very convenient to be carried. And very proud that it is the very initial and most advanced portable model in China.
- ✦ Microscope type: Binocular crossed stereo microscope

PRODUCT DESCRIPTION

Slit Lamp AME-5DII

- ✦ Galilean unparalleled Optical give this slit lamp high depth of field view.
- ✦ Drum rotation makes 5 steps magnification convenient to shift
- ✦ The bulb and optical lens made of glass are imported from Germany.
- ✦ All the lens are multi-coated, mildewproof and anti-reflection.
- ✦ All the adaptors are universal.

PRODUCT DESCRIPTION

Operating Microscope AM-AOM-101

- ✦ AOM Series Operating Microscopes using LED light source for coaxial illumination, have different working distance and magnification. They are featured for flexible handling and easy operation. They can be sued for micro-operation in ear-nose-throat, dental, ophthalmology, gynecology, and surgery.
- ✦ AOM-101 is mainly used for micro-operating in ear-nose-throat surgery.

PRODUCT DESCRIPTION

Biological Microscope AM-XSP-200SM

- ✦ Viewing head: Compensation Free Trinocular Head
- ✦ Eyepieces: Wide Field Eyepiece, WF10X (WF16X optional)
- ✦ Achromatic objective: 4X, 10X, 40X (S), 100X (S, Oil)–Stage: Double Layer Mechanical
- ✦ Stage size: 125mm*115mm

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Biological Microscope AM-XSZ-107BN

- + Viewing head: Sliding Binocular Head Inclined at 45°
- + Eyepieces: Wide Field Eyepiece, WF10X (WF16X optional)
- + Achromatic objective: 4X, 10X, 40X (S), 100X (S, Oil)
- + Stage: Double Layer Mechanical
- + Stage size: 140mm*140mm
- + Moving Range: 75mm*45mm

PRODUCT DESCRIPTION

Biological Microscope AM-XSP-200V

- + Viewing head: Dual Observation Head, One Tube 30° Inclined and Another Tube Vertical, 360° Rotatable
- + Eyepieces: Wide Field Eyepiece, WF10X (WF16X optional)
- + Achromatic objective: 4X, 10X, 40X (S), 100X (S, Oil)
- + Stage: Double Layer Mechanical
- + Stage size: 125mm*115mm

PRODUCT DESCRIPTION

Biological Microscope AM-XSP-136SM

- + Viewing head: Compensation Free Trinocular Head
- + Eyepieces: Wide Field Eyepiece, WF10X (WF16X optional)
- + Achromatic objective: 4X, 10X, 40X (S), 100X (S, Oil)
- + Stage: Double Layer Mechanical
- + Stage size: 125mm*135mm

PRODUCT DESCRIPTION

Biological Microscope AM-XSP-136V

- + Viewing head: Dual observation head, one tube 30° inclined and another tube vertical, 360° rotatable
- + Eyepieces: Wide Field Eyepiece, WF10X (WF16X optional)
- + Achromatic objective: 4X, 10X, 40X (S), 100X (S, Oil)
- + Stage: Double Layer Mechanical
- + Stage size: 125mm*135mm

DESCRIPTION

PRODUCT DESCRIPTION

Biological Safety Cabinet AM-ABS-86IIA2 Class II A2

- + Small dimension, save space.
- + Centrifuge fan, speed adjustable; H14 HEPA filter.
- + Motorized front window: the front window is motorized for convenient, one-hand operation.
- + Audio and visual alarm: Abnormal airflow velocity, Filter replacement, Front window at unsafe height, High filter pressure alarm.

PRODUCT DESCRIPTION

Biological Microscope AM-XSZ-107BN

- + Time reserve function.
- + Motorized front window.
- + ULPA filter life and UV life indicator.
- + Automatic air speed adjustable with filter block.
- + With memory function in case of power-failure.
- + Work area surrounded by negative pressure, it can ensure maximum safety in work area.

PRODUCT DESCRIPTION

Biological Safety Cabinet AM-ABS-IIA2 Series Class II A2

- + Motorized front window.
- + Time reserve function.
- + ULPA filter life and UV life indicator.
- + Automatic air speed adjustable with filter block.
- + With memory function in case of power-failure.
- + Audio and visual alarm (Abnormal airflow velocity; Filter replacement; Front window at unsafe height; High filter pressure alarm).

PRODUCT DESCRIPTION

Mini Cabinet AM-ALF-V500/VII

- + Vertical laminar flow cabinet ALF-V500, positive pressure in work area only protects sample.
- + Class I biological safety cabinet ALF-VII, negative pressure in work area protects operator and environment.

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Medicine Cabinet AM-SAC01

- + Size: 900×250/400x1750mm
- + 304 Stainless Steel
- + 4 shelves, 1 cabinet

PRODUCT DESCRIPTION

Instrument Cabinet With Glass AM-SAC03

- + Size: 900x400x1750mm
- + 304 Stainless Steel
- + 6 shelves

PRODUCT DESCRIPTION

AM-SAC06 Injection Cabinet

- + Size: 900x400x530/300x1750mm
- + 304 Stainless Steel
- + 4 shelves, 2 drawers, 1 cabinet

PRODUCT DESCRIPTION

Bedside Cabinet AM-BS01

- + Size: 480*480*760mm
- + Frame: ABS Injection.
- + Cabinet top, drawer, tray, layer board, door and the base are made of ABS
- + Towel hangers on the 2 sides of cabinet, that can be adjustable
- + Dining board is between the drawer and tabletop

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Bedside Cabinet AM-BS02

- ✦ Size: 480*480*760mm
- ✦ Frame: ABS Injection.
- ✦ Cabinet top, drawer, tray, layer board, door and the base are made of ABS
- ✦ Towel hangers on the 2 sides of cabinet, that can be adjustable
- ✦ Dinning borad is between the drawer and tabletop
- ✦ Thermos , washbasin and other commodity can be put in it

PRODUCT DESCRIPTION

Biological Microscope AM-XSZ-107BN

- ✦ Size: 480*480*760mm
- ✦ Frame: ABS Injection.
- ✦ Cabinet top, drawer, tray, layer board, door and the base are made of ABS
- ✦ Towel hangers on the 2 sides of cabinet, that can be adjustable
- ✦ Dinning borad is between the drawer and tabletop

PRODUCT DESCRIPTION

Horizontal Laminar Flow Cabinet AM-ALF-H1300/H1800

- ✦ Main Body: Cold-rolled steel with anti-bacteria powder coating
- ✦ LED lamp, UV lamp*2, Base stand, Gas Tap, Waterproof socket*2, Water Tap (only for ALF-H1800)
- ✦ Work Table:304 stainless steel

PRODUCT DESCRIPTION

Horizontal Laminar Flow Cabinet AM-ALF-H1100/H1500

- ✦ Main Body: Cold-rolled steel with anti-bacteria powder coating
- ✦ LED lamp, UV lamp*2, Base stand, Waterproof socket*2, Hook*10
- ✦ Electric height adjustable base stand

MRI || CT.

MRI

Magnetic resonance imaging is a medical imaging technique used in radiology to form pictures of the anatomy and the physiological processes of the body. MRI scanners use strong magnetic fields, magnetic field gradients, and radio waves to generate images of the organs in the body.

CT

A computed tomography scan is a medical imaging technique used to obtain detailed internal images of the body. The personnel that perform CT scans are called radiographers or radiology technologists.

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Sony High Glossy (Thermal paper)

- ✦ Water resistance high-gloss ultrasound printer paper, made in USA
- ✦ Thermafilm specifically designed for medical recording equipments such as ultrasound systems. Films are widely used with 3d printing machine.
- ✦ Ultrasound print papers are compatible with Sony and Mitsubishi black and white video graphic printers. It can easily tear in the cross direction and has minimal curling.

PRODUCT DESCRIPTION

Eco Gel (ultrasound gel)

- ✦ Ideal for Wide Range of Ultrasound Applications
- ✦ Provides Required Viscosity
- ✦ Advanced Salt, Alcohol & Perfume Free Formula
- ✦ Efficient Package Design Eliminates Product Waste
- ✦ Volume Options Available

PRODUCT DESCRIPTION

AGFA CT FILM

- ✦ Radiomat G-Plus is a general X-ray film designed for use with green emitting intensifying screens
- ✦ The system speed of this film has been adapted for specific applications, according to the international guideline
- ✦ This permits the use of Radiomat G-Plus film in applications such as angiography, where it gives sharp and detailed images of even the smallest blood vessels as well as of bone structures

PRODUCT DESCRIPTION

KONICA CT FILM

- ✦ Medical image recording film exclusively used for our dry laser imager products, which supports film under bright light. There is a rich lineup including various sizes and mammography film.

DESCRIPTION

PRODUCT DESCRIPTION

Digital X-Ray Machine AM-AR-5100

- + Generator output: 5.0 kW
- + kV range: 40 kV – 120 kV in 1kv steps
- + mA range: 25-100 mA
- + Exposure time: 4 films per min, less than 20 ms per film
- + X-ray tube: Stationary anode tube with a focal spot of 1.5*1.5 mm
- + Collimator: Bright field light beam collimator with 120 W halogen lamp and auto shut-off facility.

PRODUCT DESCRIPTION

High Frequency Digital Radiography System (DR) AM-AR-960-I

- + High-pressure trigger
- + X-ray tube
- + High-voltage cable

PRODUCT DESCRIPTION

Fully Automatic Urine Analyzer AM-KU-500

- + Low noise during operation
- + Built-in PC, large-capacity storage drive, storing millions of test results
- + Perfect quality control system
- + Optional bar code reader, convenient for information management
- + Perfect alarming system
- + 8 inch LCD touch screen, Windows system operation platform, English operation interface, simple and convenient

PRODUCT DESCRIPTION

High Frequency Digital Radiography X-Ray System AM-ARI-8500

- + This machine is applied to take radiography on every part of human
- + body, such as head, limbs, chest, limbus and abdomen and etc.

ULTRASOUND SYSTEM.

PRODUCT IMAGE

DESCRIPTION

PRODUCT DESCRIPTION

Digital Color Doppler Ultrasound Diagnostic System AM-K10 4D

- ✦ The familiar PC system, 15 inch LED monitor, ergonomic & rotatable design operation panel, free arm with 360 degree rotation and four probe connectors make the machine
- ✦ operate easily and conveniently

PRODUCT DESCRIPTION

Veterinary Handheld Ultrasound Scanner AM-V-3000A

- ✦ Full digital beam forming technology
- ✦ Generate Report
- ✦ 7 inch TFT LCD
- ✦ A/DC and LI-battery operated
- ✦ Human and veterinary double system (depend on your needs)
- ✦ Light and compact design, simple to use

PRODUCT DESCRIPTION

Veterinary Laptop Full Digital Ultrasound Scanner AM-AR-9000V

- ✦ This machine is applied to abdominal, urology, obstetrics and gynecology, pediatrics, neonatology, superficial structure, small organs, musculoskeletal, heart and so on.
- ✦ It is applied to cow, horse, sheep, swine, cat, dog.
- ✦ Inspection in the process of embryo transfer.
- ✦ Recognition of false pregnancy of pig, horse etc.

PRODUCT DESCRIPTION

High Frequency Digital Radiography X-Ray System AM-ARI-8500

- ✦ Ultrasonic host operating system: Windows 8 operating system
- ✦ Spectrum pulse Doppler
- ✦ Direction energy Doppler
- ✦ Real time three Synchronization
- ✦ Space composite imaging
- ✦ Organized harmonic imaging

ENDOSCOPY SYSTEM.

Endoscopy is the insertion of a long, thin tube directly into the body to observe an internal organ or tissue in detail. It can also be used to carry out other tasks, including imaging and minor surgery.

Endoscopies are minimally invasive and involve openings of the body such as the mouth or anus.

Alternatively, they can be inserted into small incisions, for instance, in the knee or abdomen. Surgery completed through a small incision and assisted with special instruments, such as the endoscope, is called keyhole surgery.

www.mogodhealthcare.com

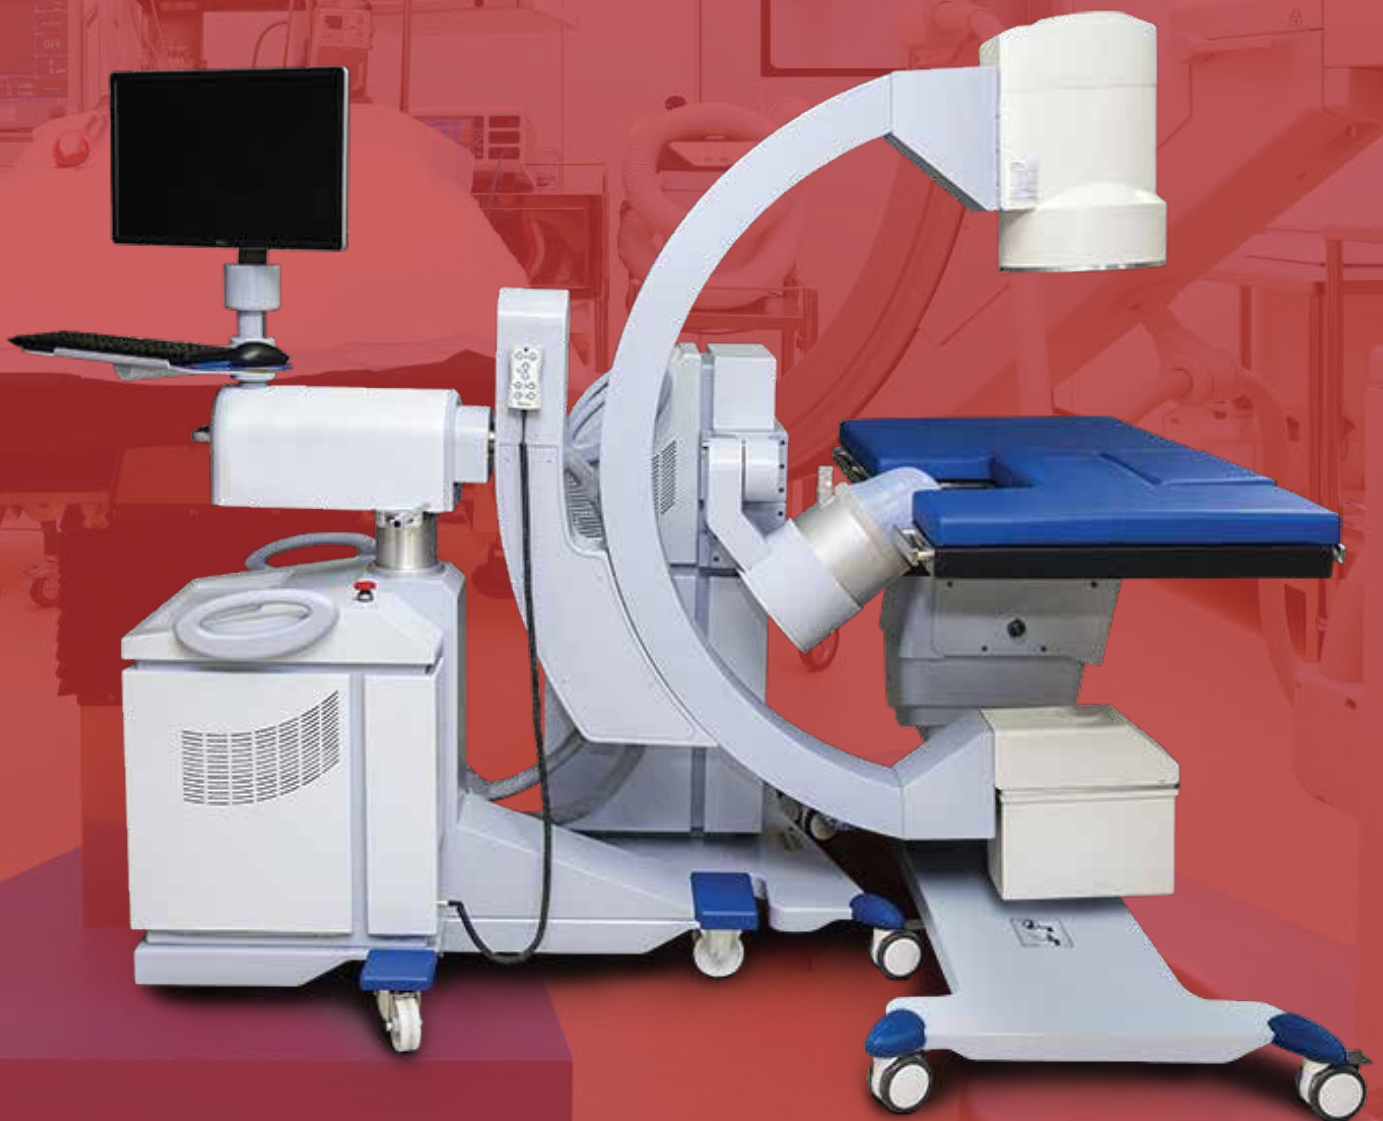

STERILIZING EQUIPMENT.

The autoclave applies intense pressure and heat to destroy all microorganisms on an object. With steam sterilization, an appropriate decontaminant is used to clean the outside surfaces of the medical equipment. You can prevent damage by using either paper or cotton to wrap the instruments before the process starts.

LITHOTRIPSY EQUIPMENT.

Lithotripsy is a noninvasive (the skin is not pierced) procedure used to treat kidney stones that are too large to pass through the urinary tract. Lithotripsy treats kidney stones by sending focused ultrasonic energy or shock waves directly to the stone first located with fluoroscopy (a type of X-ray "movie") or ultrasound (high frequency sound waves). The shock waves break a large stone into smaller stones that will pass through the urinary system. Lithotripsy allows persons with certain types of stones in the urinary system to avoid an invasive surgical procedure for stone removal. In order to aim the waves, your doctor must be able to see the stones under X-ray or ultrasound.

HEMODIALYSIS EQUIPMENT.

Lithotripsy is a noninvasive (the skin is not pierced) procedure used to treat kidney stones that are too large to pass through the urinary tract. Lithotripsy treats kidney stones by sending focused ultrasonic energy or shock waves directly to the stone first located with fluoroscopy (a type of X-ray "movie") or ultrasound (high frequency sound waves). The shock waves break a large stone into smaller stones that will pass through the urinary system. Lithotripsy allows persons with certain types of stones in the urinary system to avoid an invasive surgical procedure for stone removal. In order to aim the waves, your doctor must be able to see the stones under X-ray or ultrasound.

OPTICAL EQUIPMENT.

VERTINARY EQUIPMENTS.

We rely heavily on animals for food, work, fiber, and companionship. Therefore, the welfare and health of animals are also our responsibility and veterinary clinics are very necessary for this purpose.

To run a veterinary clinic, certain equipment, devices, and other vet tools for veterinarians are needed that's why we have made this Veterinary Tools List which will help all veterinary doctors provide efficient medical care to the patient.

LIST OF VETERINARY EQUIPMENT AND TOOLS

ESSENTIAL FOR VETERINARIANS: WHAT TOOLS DO VETERINARIANS USE?

- ✦ Veterinary stethoscopes
- ✦ Thermometers
- ✦ Ophthalmic and aural examinations
- ✦ Exam and procedure tables
- ✦ Weighing Scales
- ✦ Veterinary Ultrasounds
- ✦ Digital X-Ray machines
- ✦ CT Scanners
- ✦ Anaesthetic Machine
- ✦ Surgical Instruments
- ✦ Monitoring Equipment
- ✦ IV pumps
- ✦ Warming Unit
- ✦ Microscopes
- ✦ Centrifugal Machine
